

# A Conversation with Cheslan Simpson, Senior Scientist at Pacific Northwest Laboratory

**TUESDAY, OCTOBER 25, 2022 • 2:15 PM–3:15 PM**

Remsen Hall, Room 101

**CESLAN SIMPSON** is a senior scientist who provides scientific solutions as a principal investigator and project manager. Since graduating from Queens College (1994), Cheslan earned a PhD from the University of Chicago (2002) followed by post-doctoral and staff appointments at Los Alamos National Laboratory (LANL). After 13 years at LANL, he joined Pacific Northwest National Laboratory as a senior scientist in 2015. Cheslan's work includes algorithm development and evaluation, atmospheric and environmental monitoring, and data analysis. He is a team leader and engages heavily in mentoring of students and staff at all levels.

Cheslan is an avid soccer player and coach. He is married to Jacqueline Simpson (1994), and together they have four sons.
